All,

This is significant!! Another example of how our OB/OD concerns have resonated. The EPA Camp Minden order to open burn (despite my objections) and the successful overturn of this due to public pressure is discussed; and Radford, Holston, Clean Harbors, and China Lake (all sites on our radar) are mentioned. Adequacy of our regulations is questioned. The call for EPA-DOD action has momentum!!

Ken

Hello, all,

Attached is information which we think is extremely relevant regarding ending open burning of explosive waste, debris contaminated with explosive waste, and debris *potentially contaminated* with explosive waste across the United States. We are extremely concerned that it is still going on next to residential neighborhoods in Kingsport, Tn., where we live. Why is it taking so long for the EPA to resolve this issue?

Best regards,

Mark and Connie Toohey
Kingsport, Tn.
